Registered Long-Term Care Nursing Assistant Program

RESOURCE INSTRUCTOR DATA FORM

Definition: A resource instructor is a person with specialized knowledge and information who participate in the nursing assistant program and provides expertise in his/her specialty thereby enhancing learning.

Many of these people will have appropriate licensure or certification in the health care field.

The Resource Instructor must have one year of current experience in their area of expertise.

At no time is a resource instructor an acceptable substitute for a program or clinical instructor.
